AVOID THE SUMMER SLIDE!

The Academic Enrichment Program is a three week course designed by a National Board certified MCPS Reading Specialist for students entering the first through sixth grade. Teachers in this program will reinforce concepts taught during the school year and students will explore a different thematic theme each week. A variety of individual and group activities allow participants to explore concepts in an engaging and motivating way. Students are grouped by age and grade level. Participants are encouraged to register for sports or day camps for afternoons following Academic Enrichment. Academic Enrichment can be taken on a week to week basis however campers are encouraged to participate in the full three week course.

...my feedback on HOOPED is that it is a genius program. For working parents to have a well-run, fun, great coaches program is truly a huge gift. The price is right and very reasonable.

- **Ms. Duvall (Grandmother)**

I just wanted to thank you for the great week that Charlie had last week. He absolutely loved the camp and counselors and is looking forward to it next year. Thank you for providing such fun activities through your programs.

- **Karoline**

It was great to see the interactions of the staff with the kids. The staff made every effort to use opportunities for teaching moments and it was very apparent that the kids were learning new skills. The kids respected the coaches and the coaches respected the kids. It really was a sight to see.

- **Lynn**

HoopEd is great program to keep kids active in the summer, especially my daughters who aren't into sports. My kids loved playing all of the "old school" outside games and can't wait to teach their friends. Coach P is fantastic with the kids! My kids played so hard that when they came home they were pooped!

- **Melissa, mom of three**

All around, this is such a positive camp experience for them - they raced in the door each morning!
